

SNELL

Usually done with a butt section of leader, this can be used with a tapered leader. Once practiced a few times, this is simple, reliable & very strong.

- 
- 1** Paperclip / Stiffner Fly Line Leader tippet end
Hold all 3 between your forefinger & thumb.

- 
- 2** Loop the butt end in the opposite direction, pinching both leader strands, fly line & stiffner together.

- 
- 3** Wrap butt section 7 times back towards your pinch.

- 
- 4** Pinch entire knot, remove stiffner & pull leader through.

- 
- 5** Pull leader ends slowly down keeping coils aligned, then pull leader & fly line tightly. Trim tag ends close to knot.
