

SURGEON'S KNOT

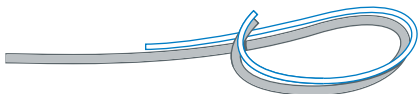

Paternosta rigs, leader & tippet.

MAIN LINE

LEADER / TIPPET

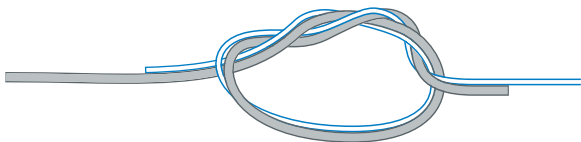

- 1 Overlap the working ends of both lines.

- 2 Make a loop holding both lines together.

- 3 Pass both lines through the loop & pull the leader all the way through.

- 4 Pass both lines through again. Make a third pass for increased strength with lighter tippets.

- 5 Pull all four strands to tighten & trim the tag ends. Finished knot should resemble a figure 8.
