

ALBERTO KNOT

ALBERTO KNOT

The Alberto Knot is the opposite of the Albright knot. If your braid is slippery or you find that your Albright knot is breaking easily, simply switch the braid & line around.

- 1** Make a loop in the leader & feed braid through.

- 2** Wrap around the leader, holding the loop.

- 3** Wrap the leader around the braid at least 12 times & finish on the same side you started.

- 4** Hold both ends of braid & leader, pull tight & trim off both tag ends.
